The Journeys That Lie Ahead

It's officially fall and I hope you've had a chance to take a scenic drive to view the changing colors of the season. As we close out the 2026 touring season with the Revival AAA Glidden Tour® in Dover, Delaware and the upcoming Western National in Salina, Kansas, many thanks go to our club members who have invested time and effort in making this

touring season exciting, educational and fun. There have been many great tours, National, Regional and Chapters, of which members have planned and been participants. The added benefit of gathering friends and families throughout the year emphasizes the bond we have, not only for love of vintage cars, but of establishing friendships along the way and the desire to encourage others to become members and share our experiences.

Looking forward, the Annual Membership Meeting and Awards Banquet in French Lick, Indiana, February 21 - 24, is an opportunity for us to gather to support our club, share our thoughts and plan for the future. I hope you will consider joining us in French Lick. It's going to be lots of fun as well as a time to experience the direction and commitment from our Board of Governors as they work to further the vision of our club. It is open to all club members and an opportunity to participate in the future of our club.

Coming up in April, plans are in process for the Heritage Tour in Tyler, TX, April 11 – 17. Mark your calendar for the Chrome Glidden in Appleton, WI, August 15 – 20, and the Revival AAA Glidden Tour®, September 19 – 24. It's going to be a great touring season in 2027. There is always room to add another tour, perhaps mid-summer.

Vice President of Activities

ANNOUNCEMENTS

The annual meeting has been titled several different ways recently. It has been titled, annual meeting, annual membership meeting, and a title I have been thinking about a great deal lately, Annual **Members'** meeting. Notice that I made members bold and I used the possessive form of members by using the apostrophe '. It's your meeting.

A query of the Member Roster database yields 357 member households that live within a one day driving distance of French Lick, Indiana. That is roughly 600 plus possible attendees if every one of those household members did

attend. Let's face it, we could not handle an attendance rate of 600, or 300, or even 200. Or could we? Securing hotel accommodations and meeting room space is certainly doable. It would be similar to a tour with 100 cars. We can do that!

Meetings are fun, especially when the committee has an emphasis on the fun. **Members'** meetings are also an important opportunity for members to help our Board of Governors make improvements in ways the VMCCA functions. We need members to share their thought. We need your attendance to energize our club!

Donations to the VMCCA Scholarship Foundation are Tax Deductible

I have commented before that I firmly believe that the VMCCA Scholarship Foundation is one of the top benefits of our club. The VMCCA Foundation was formed to award scholarships to deserving young people who are relatives of VMCCA members. Imagine helping young people further their education, follow their dreams, and find fulfilling careers. The Foundation makes quarterly reports to the VMCCA Board of Governors. Their most recent report mentioned that 107 scholarships have been awarded. Our members have been generous donors and the scholarship recipients are grateful.

The VMCCA Scholarship Foundation is organized as a 501(c)(3) organization meaning donations are tax-deductible for the donor.

Please consider an end of year donation.

Thank You!!

Brighton Chapter Cruise Night July 28, 2026

Text & Photos by Rick Thomas

Had a great cruise tonight on part of the historic Pontiac & Grand River Trail that dates to 1833. Included a delicious ice cream stop at The Dam Twist in downtown Byron, home of NASCAR's Eric Jones. Also stopped at Walkerville Family Mart, a historic former BOC Gas Station dating from about 1942. Great rides and great times with great people. Join us next time!

September 1 Monthly Meeting in Kerrville

Our monthly meeting on Tuesday, September 1, will be at Acapulco Mexican Restaurant (1718 Sidney Baker St.) in Kerrville. Their meeting room in back will be reserved for us beginning at 5:00 p.m. with the meeting starting at 6:30 p.m. Dinner will be individual checks with the club contributing \$5 per person towards the meal.

September 17 Tour of Camp Lucy

On Thursday morning, September 17, we will meet at Stage Coach Shop at the corner of Highway 290 and Ranch Road 1376 (time to be determined) before heading to Dripping Springs to tour Camp Lucy, a luxury resort and event venue. We will have time to look around the property before having lunch at 11:00 a.m. (individual checks) at Tillie's, a restaurant in a 200-year-old Vietnamese town hall that was bought and reassembled on their property using no nails. After lunch, we will go to Speeding Springs to see their rotating private collection of classic and exotic cars, antique store, and memorabilia. Contact [Annette Crowhurst](#) or [Kathy Freedlun](#) to sign up for the tour.

Overland & Underground Tour, October 8-9

If you plan to join us for the curated tour of Ft. McKavett and the guided tour of the Caverns of Sonora on October 8-9, make your hotel reservation now for October 8 at Quality Inn Sonora by calling (325)530-5883. A block of rooms is being held for FVCC until August 30. Reference FVCC at the time of your reservation. The rate is \$100 per night + tax for a King or two Queen beds (breakfast included). There is a 48-hour cancellation. More details to come on where and when to meet for Fredericksburg and Kerrville members. Contact

A Timeless Design: The 1963 Buick Riviera

By: Robert Tate, award-winning automotive historian and researcher

Images courtesy of GM Heritage Archives & Special Collections.

Edited by MotorCities National Heritage Area Staff

Published 09.02.2026

GM stylist Ned Nickels got the styling right from the outset in 1960

The Riviera name had been used by Buick since 1949. However, the 1963 Riviera was the first Buick to use Riviera as the name of a distinct, newly designed model. The 1963-1964 Buick Riviera was developed under the direction of General Motors design chief Bill Mitchell, with designer Ned Nickles playing an important role in creating the car's distinctive styling. Nickles was working in GM's advanced projects area when the Riviera project was being developed.

The first Buick Riviera design originated with GM project XP-715. The project was initially associated with Cadillac and the LaSalle name.

Cadillac ultimately did not pursue the project, which gave Buick the opportunity to develop the automobile. Nickles produced the original sketches, and Mitchell approved the design direction and ordered a full-size clay model to be built. The proposed Riviera was a low-silhouette coupe with a long hood and short deck. By 1961, the rear-end design was approaching its final form, and Mitchell was pleased with the results.

The 1971-73 Buick Rivieras Offered Great Boattail Designs

By Robert Tate, Automotive Historian and Researcher
Images Courtesy of the General Motors Media Archives
Published 11.04.2020

The 1971 Buick Riviera offered an all-new design for that model year. It featured a bold new look with its long-tapered hood front-end and boattail rear design.

Despite a dismal economic outlook at the beginning of 1971, Buick went ahead with an expansion program to sell more automobiles. During the 1970s, Buick was a top brand in the American market, and they still had the reputation of making some of the best family cars in the country.

The model received mixed reviews from the public. One of the main styling features was its boattail design. Some automotive historians have said that the boattail Riviera models made a radical fashion statement. I always thought it reminded me of that boattail styling introduced on the 1963 Corvette by Bill Mitchell, who oversaw the General Motors design studio. GM called its early 1970s Buick designs more smoothly rounded, marked by curved fuselage bodysides, massive hoods and broad expanses of glass.
