Remembering the Popular 1960s Dodge
Little Red Wagon Truck

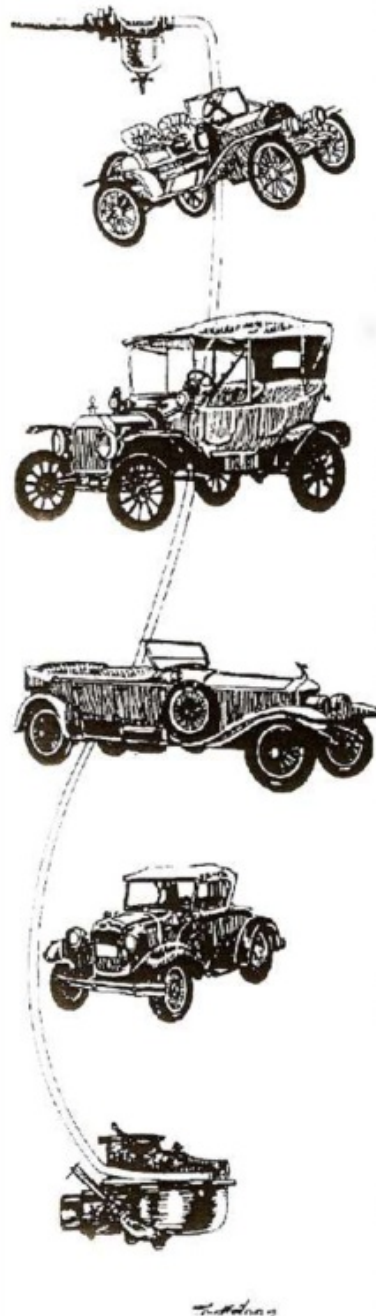

The 1965 Dodge Little Red Wagon (Old Car Weekly)

One of the most popular custom pickup trucks during the 1960s was the Dodge Little Red Wagon, which was introduced in 1965. As a young kid at the time, I became a huge fan of this truck.

The pickup truck was created by truck model builders Jim Schaeffer and John Collier. The two talented model builders designed extensive modifications to a 1965 Dodge A 100 model pickup truck to accommodate a 426 V8 Hemi engine, a very popular Chrysler engine that became one of the company's trademarks.

According to automotive historians, the Dodge Little Red Wagon was an exhibition drag racing truck and the first wheel standing truck. The Hemi engine made it one of the fastest trucks on the racetrack.
